## **RollerskiShop.com Releases New \$140 Rollerskis!**

RollerskiShop.com is entering its 6<sup>th</sup> summer in business, and is excited to announce this year the new T6005 skate model representing affordability and value, with shafts machined right here in Minnesota. Regular retail price is \$150, but right now for a limited time during our late winter sale you can get this pair for just \$140 plus free shipping and free mounting! Wheelbase measures 600 mm with 100x24 mm rubber wheels that come in 3 different speeds of long lasting quality. We even give you the option to upgrade this model to 105 mm wheels for just \$18 more.

In addition, right now all of our other models are on sale with free shipping and mounting, ranging from our most popular T6004 model now priced \$150, to our top of the line T6101 now \$220. We even have low prices on replacement wheels priced just \$80 and \$100 for four built 100x24 and 105x24 mm wheels respectively!

Team pricing available on orders of 5+ pairs. Stay strong this summer and become a faster skier!
