RACE RULES

1. Skiers in each team must compete with bib colors in order:
Red (xx) Green (1xx) Yellow (2xx) Blue (3xx)
2. Exchanges must be completed within the zone.
3. No lane assignments. No tracks will be set for the start. Skate skiers must double pole until reaching the line at the end of the scramble zone.
4. “A” teams (one per school) will line up 5 meters ahead of all lower teams at the start.
5. All skiers on an A relay team must be from the same school.
6. No skier may ski more than one relay leg throughout the day.
7. Pre-race changes will be accepted (please pity our data entry results team), but **skiers must ski as entered.**
8. Each school must have a coach present.
9. For classic technique skis must remain parallel with the tracks unless changing lanes. Step turns are permitted on sharp turns. Herringbone steps (with no glide) are permitted to climb hills. Skiers are responsible to know and understand the rules of classic skiing.
10. Timing protests must be made in writing to race headquarters within 30 minutes after the posting of the results. Any coach witnessing an infraction of the classic technique, or deviation from the course, should report the incident in writing. A jury, selected at a coaches meeting, will be convened to hear any protest(s).
11. **Each school must supply a coach or parent volunteer** to assist with timing (two if more than three teams are entered in a given race.)
